Business Owner's Checklist:
How to Choose
a Software Development Company

- [ ] **DEFINE YOUR REQUIREMENTS**
  - Outline project scope and objectives
  - List specific features needed

- [ ] **RESEARCH POTENTIAL COMPANIES**
  - Look for companies with strong reputations
  - Check for positive reviews and relevant experience

- [ ] **EVALUATE PORTFOLIOS**
  - Review previous projects for quality
  - Check for experience in similar projects

- [ ] **CHECK TECHNICAL EXPERTISE**
  - Confirm necessary skills in required technologies

- [ ] **READ CLIENT TESTIMONIALS**
  - Look for feedback from past clients

- [ ] **ASSESS COMMUNICATION SKILLS**
  - Ensure responsiveness and willingness to collaborate

- [ ] **INQUIRE ABOUT DEVELOPMENT METHODOLOGIES**
  - Ask about preferred methodologies (e.g., Agile, Scrum)

- [ ] **DISCUSS PROJECT MANAGEMENT**
  - Understand how they manage timelines and milestones
  - Inquire about handling changes and challenges

- [ ] **EVALUATE SUPPORT AND MAINTENANCE**
  - Check if ongoing support and maintenance are offered

- [ ] **REQUEST A DETAILED PROPOSAL**
  - Ask for a proposal outlining costs, timelines, and deliverables

MobiDev can help you with:

- Providing the software audit to identify risks and vulnerabilities in code and infrastructure.

- Creating a comprehensive tech strategy for your current and new product, prioritizing the flexibility of your product.

- Ensuring effective software development process through our Dedicated Development Teams and Team Augmentation cooperation models.
